

K2

SKATES

SPRING / SUMMER 2026

K2 Skates builds products to meet the year-round needs of the inline skating enthusiasts worldwide. In 1993 K2 revolutionized the skate industry by introducing the first-ever Softboot inline skates. This patented K2 technology pushed the envelope for inline skate innovation and forever changed the performance of the sport.

09

TECHNOLOGY

**CLOSURE
TECHNOLOGY****Traditional Lacing**

Customize your lacing and knot the same way you tie your shoes.

Speed Lacing

Secure your skates with one pull. The K2 Speed Lacing System makes it easy to get in and out of your skates. Just one pull of the lace, roll, and stow and you're ready to skate – that easy.

**THE BOA®
FIT SYSTEM****Agility and Speed**

The BOA Fit System enables faster, more powerful directional changes through a seamless connection between body and equipment.

Power and Precision

Power without compromising precision, the BOA® Fit System delivers more explosive action and unparalleled accuracy.

Endurance and Health

Go further, faster, and stronger. The BOA® Fit System saves energy by improving circulation and efficiency.

Durability and Quality

Engineered with high quality, durable materials, the BOA® Fit System is guaranteed to perform in any environment.

**FRAME
TECHNOLOGY****F.B.I Frame**

Composite recreational frame that establishes a low center of gravity and absorbs road vibration.

Stamped Aluminum Frame

Responsive, stiff and durable stamped aluminum for acceleration and speed.

D.C Aluminum Frame

Responsive and stiff die cast aluminum for acceleration, speed and control.

MOD 110 Frame

Extruded & machined 6061 aluminum; 2 bolt mount (180mm or 195mm mounting), for 4x100 wheels.

**CUFF
TECHNOLOGY****Stability Plus Cuff**

The perfect blend of support, flexibility and comfort for a wide range of skater.

Aggressive Cuff

Beefy support for big tricks.

MOD 110 Dual Density Cuff

Anatomical low profile cuff with 2 materials providing both stiffness and flexibility.
